LAGOON EIGHTY 2

TEXTILE COMFORT MADE IN FRANCE

BY **SUNBRELLA®** AND **NVEQUIPMENT**.

The new Lagoon EIGHTY 2 is a perfect illustration of an alliance between three areas of French expertise: Lagoon, Sunbrella® and NVequipment. Three complementary brands united by the same commitment to stylish, long-lasting, tailored products for high-end yachting.

A blend of design, technology and elegance, the new Lagoon EIGHTY 2 embodies genuine expertise Made in France. The world leader in cruising catamarans, Lagoon has designed a yacht to experience freedom in style.

To enhance all interior and exterior spaces, Sunbrella® has designed all the upholstery using technical fabrics created and manufactured in France. Resistant to UV rays, weather and wear and tear, these top-of-the-range textiles combine comfort, a natural feel and custom finishes.

NVequipment has also produced the model's custom boat covers: awnings, windshield, enclosures, courtesy curtains, winch, windlass and helm covers. Each piece is designed, cut and assembled in NVequipment's workshops in western France, where high-end craftsmanship is combined with industrial precision.

Onboard the Lagoon EIGHTY 2, this alliance symbolises the best of marine expertise Made in France: creativity, high standards and technical excellence at the service of comfort and style at sea. An exemplary alliance between innovation, elegance and French manufacturing at the

heart of the yachting industry.

NVequipment **recognized expertise since 1977**

For almost 50 years, NV has been designing and manufacturing all its products in Saint-Gilles-Croix-de-Vie (Western France). Design, engineering, stitching assembly in the fabric workshops and aluminium or stainless steel forming in the mechanical workshop: each stage of product is mastered in-house, guaranteeing technical expertise, quality and durability.

The brand works with over 40 European shipyards, including the flagship brands of Fountaine Pajot-Dufour, Groupe Beneteau (Jeanneau, Bénéteau, Lagoon, etc.) and Grand Large, as well as with specialist builders such as JFA, Structures, Alubat, Tricat, Allure-yachting, etc. These references are confirmation of its position as a privileged partner in the boating industry.

**Visit the NVequipment stand 12.710, Pavillon France
at METSTRADE Amsterdam 2025.**
